

Pricing & Billing Policies v2.1

XLVentures.AI | Customer Success Platform | Internal Use Only

1. Plan Overview

XLVentures.AI Customer Success Platform is offered in three tiers:

STARTER PLAN

- Up to 5 seats
- Core modules: Project Management, Email Integration, Basic Reporting
- Support: Email only (response within 48 hours)
- Price: Rs. 2,999/month or Rs. 29,990/year (2 months free)

GROWTH PLAN

- Up to 20 seats
- All Starter modules + Advanced Analytics, Client Portal, Time Tracking
- Support: Email + Chat (response within 24 hours)
- Dedicated CSM assigned at 10+ seats
- Price: Rs. 6,999/month or Rs. 69,990/year

ENTERPRISE PLAN

- Unlimited seats
- All modules including API Access, Custom Integrations, White-labeling
- Support: Priority (response within 4 hours) + Dedicated CSM + Quarterly EBR
- Custom SLA agreement
- Price: Custom quote (starting Rs. 15,000/month)

2. Additional Seats Pricing

Additional seats can be purchased mid-contract and are prorated to the remaining contract term.

Starter Plan: Rs. 599/seat/month per additional seat

Growth Plan: Rs. 399/seat/month per additional seat (volume discount built in)

Enterprise Plan: Negotiated - CSM must involve Account Executive for pricing

Bulk seat discounts:

- 5-9 additional seats: 5% discount
- 10-19 additional seats: 10% discount
- 20+ additional seats: 15% discount + must involve AE

All seat expansion requests must be quoted within 4 hours of receipt (Rule P-05). Delays in quoting seat expansions are associated with a 23% reduction in upsell conversion.

3. Rule P-02 - Billing Dispute Resolution

Trigger: Customer reports an incorrect charge, duplicate charge, or missing discount on invoice.

Required actions:

1. Acknowledge the dispute within 4 hours of receipt.
2. Verify the claim against billing records within 24 hours.
3. If dispute is valid: issue revised invoice and confirm refund timeline (standard: 5-7 business days).
4. If refund is delayed beyond 7 business days: proactively notify customer and apply a 1-month credit as compensation.
5. Log dispute in billing system with root cause tag.

Refund escalation:

- Refunds up to Rs. 10,000: CSM can approve and process.
- Refunds Rs. 10,001-50,000: Finance Manager approval required within 24 hours.
- Refunds above Rs. 50,000: VP Finance approval required.

Do not ask customers to wait more than 7 business days for a refund without proactive communication and compensation.

4. Rule P-05 - Seat Expansion Response SLA

All seat expansion or plan upgrade requests must receive a formal quote within 4 hours during business hours (9 AM-6 PM IST, Monday-Friday).

If the request arrives outside business hours, the quote must be sent by 10 AM the next business day.

The quote email must include:

- Itemized pricing for requested seats
- Available bundle or upgrade options
- Any applicable loyalty or volume discounts
- A clear call to action (reply to confirm, or book a call)

A delayed response to seat expansion requests is one of the highest-value revenue leakage points identified in XLVentures.AI's 2025 revenue audit.

5. Renewal Pricing Policy

Standard renewal is at the same price as the previous contract term unless:

- A discount was applied to the original contract (discount does not automatically renew)
- The customer requests renegotiation
- The account health score is below 60 (retention pricing may be offered)

Renewal discounts available without approval: up to 10%

Renewal discounts requiring Senior CSM approval: 11-20%

Renewal discounts requiring VP approval: above 20%

Early renewal incentive: Customers who renew more than 30 days before expiry receive an additional 5% discount.

Annual renewals are preferred over monthly. CSMs should actively convert monthly plan customers to annual during renewal discussions.

6. Payment Terms

Standard payment terms: Net-30 from invoice date.

Extended terms available:

- Net-45: Available on request, no approval needed for Growth/Enterprise plans.
- Net-60: Senior CSM approval required.
- Net-90 or quarterly billing: VP Finance approval required.

Overdue invoices:

- 15 days overdue: Automated reminder sent.
- 30 days overdue: CSM must make direct contact.
- 45 days overdue: Platform access may be suspended (warning must be given 7 days in advance).
- 60 days overdue: Escalate to Collections. CSM to maintain relationship contact independently.
